

**March 16, 2009**

**Bonnell Aluminum announces that Customer CAD Drawings can now be downloaded in .DWG format.**

A Change was recently made to the Bonnell Interactive website. Effective immediately, Customers can download their AutoCAD drawings directly from our website. To access the drawings, Customers will need to log into the Bonnell Aluminum website and click the link labeled "My Shapes List". Customers will then be able to download their CAD drawings by clicking the link labeled ".DWG".

In the event this is the Customer's first time downloading AutoCAD drawings, they will be prompted to download the Bonnell Aluminum CAD Packet to a specific directory on their computer. The Bonnell Aluminum CAD Packet has the Bonnell Header information on it.

Quality, Capability, Service – More reasons why Bonnell Aluminum should become your aluminum extrusion supplier of choice
